MISSION STATEMENT

The mission of PCC Community Wellness Center is to improve health outcomes for the medically underserved community through the provisions of high quality, affordable, and accessible primary health care and support services. We are committed to serving the needs of men, women, and children in all lifecycles, while we continue to specialize in the delivery of comprehensive maternal and child health services to address this unmet need in our community.

VISION STATEMENT

PCC Community Wellness Center, in partnership with its providers and staff, provides quality medical services to the medically underserved in the community in an effort to improve outcomes and eliminate health disparities. It is our belief that though we serve a specific geographical area, it is our responsibility to share our models of success with our local and national partners in service with an ultimate goal of improving the health and well being of all those who are underserved.
