McGaw Northwestern Sports Medicine (Family Medicine) Fellowship

Our Primary Care Sports Medicine Fellowship program prepares physicians to lead in the field of sports medicine. Here, you'll have direct access to world-class faculty, elite athletes and dynamic clinical settings. Our goal is for fellows to gain the skills and confidence they need to thrive in any sports medicine environment.

This is a one-year, ACGME-accredited fellowship program that immerses trainees in the nonoperative management of musculoskeletal and medical conditions in athletes and other individuals. Our program is open to applicants from the following fields:

- › Family Medicine
- › Internal Medicine
- › Pediatrics
- › Combined Internal Medicine-Pediatrics
- › Emergency Medicine

Highlights

- › Care for athletes from all of Northwestern University's 21 NCAA and Big Ten sports programs including:
 - › Football
 - › Basketball
 - › Lacrosse
 - › Field hockey
 - › Wrestling
- › Work with Northwestern University club sports teams, including rugby and ice hockey.
- › Build experience with professional sports teams, the Chicago Cubs and the Chicago Blackhawks.
- › Rotate with Shirley Ryan AbilityLab and Ann & Robert H. Lurie Children's Hospital of Chicago.
- › Work with attending physicians from all major primary care fields.

Built on a legacy of excellence with opportunities for growth

In addition to being a premier research institution, Northwestern University has a competitive Big Ten athletics program with over 500 student-athletes in 21 varsity sports, including recent national champion lacrosse and field hockey teams.

As a fellow, you'll spend most of your time on the main undergraduate campus in Evanston, a suburb just north of Chicago on the shores of Lake Michigan. You'll also spend time at Northwestern Memorial Hospital in downtown Chicago, near Northwestern University Feinberg School of Medicine's campus.
